

Fun 3D Outdoor Indoor 2012

Well all that hard work couldn't go to waste! Hugh thought it would be a good idea if the club members got to shoot the Outdoor Indoor 2012, together as a club, before it got disassembled next weekend. And I for one, am really glad he both suggested it, and that so many of our members, new and old, took him up on the invitation. As you'll see below, 20 members shot and scored it. Fred was there too, of course.

The buzz in the range was electric, and some of the new members were cheering louder than rest of the more experienced archers! Do I see some budding field archers in our midst... I certainly hope so ☺

A big 'thank you' to John Povey, who was chief Rocking Owl, Flying Pigs and Penguin operator for the evening. Thanks to everyone else that had their go at operating the Carp River.

Although we only shot it for fun, I know how you all like to see how you all did, so here are the results:
